The flowers are produced in abundance and in various colors and color combinations, white, orange, yellow and scarlet. The plants grow from 12 to 18 inches high, are bushy, and require no staking. Their culture is similar to that of the Gloxinia and other Gesneriaceas. Their constitution is very robust which enables them to thrive in living rooms. This is a most desirable pot plant and florists will do well to get familiar with it. Trade pkt., \$1.00.

### DON'T FAIL TO INCLUDE THE EARLY FLOWERING GIANT PANSIES IN YOUR ORDER

These plants bloom fully three weeks ahead of the regular strain, thus lengthening the season for selling of Pansy plants just that much. Every florist knows that Pansy plants will only sell when in bloom. There are now eight colors in this strain, and the flowers are of giant size.

# VAUGHAN'S GIANT PANSIES

## VAUGHAN'S INTERNATIONAL PANSIES

**Vaughan's International Pansy Mixture** was first offered by us in 1889. We import from all the best European sources. Each year has added to the quality of its flowers and variety of its colors. We buy every year, novelties of known merit to improve the mixture; it is always complete, always the latest and always the best mixture. We add to all Pansy Mixtures which we now buy, more than 50 per cent of the choicest named kinds obtainable, each in correct proportion. This is one of the **Specialties** that has established the reputation of Vaughan's Flower Seeds, and one which we maintain most carefully. Trade pkt., 50c;  $\frac{1}{8}$  oz., \$1.50;  $\frac{1}{2}$  oz., \$5.00; oz., \$10.00.

## Vaughan's Giant Pansy Mixture

Embraces, besides all the separate shades and colors, five special strains not listed elsewhere, and which can only be had in this and our International Mixture. This mixture includes the richest reds, coppers and bronzes, together with the most delicate rose and pink shadings, all the distinct colors of Trimardeau and the splendid, Cassier strain. Trade pkt., 50c;  $\frac{1}{8}$  oz., 75c; oz., \$5.00;  $\frac{1}{4}$  lb., \$18.00.

## Vaughan's Cut Flower Mixture

This mixture is put up by ourselves and contains mostly light colored sorts. We have sold this mixture for several seasons to some of our Chicago cut-flower growers, who have realized big returns from the sale of flowers. Pansies are as easily grown as violets, require less care and bring better results.

Trade pkt., 25c;  $\frac{1}{8}$  oz., 60c; oz., \$4.00

## New Early - Flowering Giant Pansies

The new strain produces its giant flowers about four weeks earlier than other known types. In March, when the old type pansies hardly show any buds the plants of the new strain bore from 3 to 5 of their giant flowers.

**Early-Flowering Giant White**, with eye, **Yellow**, with eye, **Light Blue**, **Dark Blue**, **Jupiter Purple**, **Mars**, **Cornflower Blue**, **North Pole Pure White**, **Wodan Black**, and **Mixed** (eight colors). Trade pkt., (500 seeds) 25c;  $\frac{1}{8}$  oz., 50c; oz., \$3.00.

## Chicago Parks Bedding Mixture

This is a mixture made by ourselves from 20 different and distinct varieties of this type. While the flowers of this strain do not grow as large as those of the Giant Pansies, they excel them by a much greater number of flowers to a plant.

Trade Pkt., 25c;  $\frac{1}{4}$  oz., 50c; oz., \$1.80.

## Vaughan's P. P. (Popular Price) Mixture of Pansies

This mixture, like all "Vaughan" mixtures, is made up by ourselves from separate colors and strains of the Giant and Chicago Parks Bedding types and will furnish a large variety of colors with a good proportion of giant flowers.

Trade pkt., 25c;  $\frac{1}{8}$  oz., 50c; oz., \$3.00.

Fair Maid. Finest blush pink suffused salmon, on white ground, of robust growth, with long stems carrying fours regularly. Exact counterpart of Elfrida Pearson in the late Spencer class. Oz., \$1.50; lb., \$20.00

Harmony (Early Masterpiece). A clear lavender self waved. Oz., 90c; lb., \$12.00

Madonna. Black seeded white. Result of a cross between late Constance Hinton and Early Asta Ohn, unlike other black seeded white; it has no trace of a pink tinge. Owing to its being crossed on the lavender Early Asta Ohn, it has increased the opaque whiteness of the blooms and size of flowers. Oz., \$1.50; lb., \$20.00

Nightingale. Blush lavender. Similar to Florence Nightingale in the late Spencer class. Oz., 90c; lb., \$12.00

Torch. Salmon orange. Same shade as Illuminator in the late Spencers. Oz., \$1.00

## SEEDS OF BIENNIALS AND HARDY PERENNIALS

Many of the biennials and perennials are now as important to florists as Asters, Sweet Peas, Verbenas, etc., are among the annuals. Some can be forced, such as Delphinium, Canterbury Bells, etc., while many others sell as readily as Geraniums if grown

in pots, not to speak of the cut-flower sorts, such as Coreopsis Gypsophila, Chrysanthemum, Shasta Daisy, Physostegia, etc. They are really needed in every florist's establishment that caters to the better-class of trade. The demand for them is increasing.

# BULBS for Mid-Summer and EARLY FALL

FREESIA—IMPROVED PURITY

## WHITE CALLAS

(*Aethiopica*)

These are due in August

These can be grown at less expense during the winter months, requiring less heat than other lilies.

We take great pains in securing every year bulbs which are well ripened and cured, purchasing our stock from growers in California who thoroughly understand the raising, curing and shipping of these bulbs. We have arranged again this year for a good supply of these bulbs, but would advise early ordering by our customers in order to be sure of their supply. Crop short.

## GODFREY EVERBLOOMING CALLA

(Ready in September)

This is a popular variety for either cut-flower or pot-plant sales. For design work it is better than the California variety, as flower is not so heavy and large.

**First Size.** 1 inch diameter up...  
**Large Size.** 1½ inch diameter up

CHINESE NARCISSUS—Showing Basket of 30 Bulbs and Mat of 4 Baskets.

## FREESIAS—California

Ready From end of June on

This is one of the most profitable and useful bulbs a florist can grow. Equally good for forcing or for pot plants, and can be had in flower from Christmas on, if properly grown. We always believe in selling this stock by samples, and are ready to submit same for comparison as soon as bulbs arrive.

## NEW NAMED COLORED FREESIAS

### GENERAL PERSHING

Extra robust grower, 3 feet in height, with 4 to 5 long side laterals, large open flowers of lavender pink, yellow lip and somewhat of a bronze cast.

The cut flowers have created quite a sensation on the Chicago market for several seasons and command the highest market prices.

Per 100, \$3.50; Per 1000, \$30.00

Per 100, \$3.50; Per 1000, \$30.00

**Rainbow Mixed.** (All colors including Pershing, Viola and other named kinds.) Per 100, \$3.50; Per 1000, \$30.00.

### FISCHERII

Finest, Largest, Purest and most Fragrant Freesia yet introduced. The flowers are very large, measuring two inches across; more like Lilies than Freesias in size and purity of color, rarely is a trace of yellow seen. The stems are long, strong and stiff: it is most prolific in bloom, many of the bulbs sending as many as four stems. Not being a single type, it comes into bloom more gradually than Purity, the crop lasting more than two weeks makes it very valuable to the florist.

Per 100, \$6.00; Per 1000, \$50.00.

## CHINESE NARCISSUS

# Order Dutch Bulbs

of Vaughan's Seed Store  
at New York and Chicago

Two Greatest Importing and Distributing Ports

We invite you to place with us now a liberal share of your requirements of all imported Bulbs.

For 40 years VAUGHAN'S SEED STORE at New York and Chicago has supplied the most critical FLORISTS with forcing bulbs. If you have not placed your ORDER or you have not confirmed your order at stated prices, why not send us your list for pricing. Where prices are not fixed we can give you valuable information.

- 1st.** Long and satisfactory connections with the best foreign houses.
- 2nd.** Credit arrangements and closest buying at favorable exchange rates.
- 3rd.** First early shipments, followed by one or more later ones covering entire shipping season.
- 4th.** Earliest deliveries of early forcing items which cannot rightly be delayed for main supply.
- 5th.** Covering by us of all "Special Expenses" excess brokers' fees and port charges at New York, in which nearly every U. S. Florist grower has been persistently robbed for the past five years. We eliminate this.
- 6th.** Because of the above, we ask that you submit to us a list as nearly as possible of what you expect to use between now and next November in these imports, part of which we specify below, and let us submit to you approximate prices and certain further details regarding delivery dates which we know will interest you.
- 7th.** When you buy imported bulbs from us, you buy them by measure, in centimeters or inches and so accepted by us. This means much, as against those people who sell "firsts," "seconds" or "thirds" and give you no assurance as to what such grades measure.
